

ImGuiDockNode::~~ImGuiDockNode

IM_DELETE

ImGui::MemFree

```
graph LR; A[ImGuiDockNode::~~ImGuiDockNode] --> B[IM_DELETE]; B --> C[ImGui::MemFree]
```

The diagram illustrates a sequence of three operations connected by arrows. The first operation, 'ImGuiDockNode::~~ImGuiDockNode', is contained within a grey rectangular box. An arrow points from this box to a white rectangular box containing the second operation, 'IM_DELETE'. A second arrow points from the 'IM_DELETE' box to a final white rectangular box containing the third operation, 'ImGui::MemFree'.
