

ImGui::IsWindowChildOf

```
graph LR; A[ImGui::IsWindowChildOf] --> B[GetCombinedRootWindow]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box has a light gray fill and a black border, containing the text 'ImGui::IsWindowChildOf'. A blue arrow points from the right side of this box to the left side of the right box. The right box has a white fill and a black border, containing the text 'GetCombinedRootWindow'.

GetCombinedRootWindow
